DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 10, 2005 has been entered.

The Amendment, filed on May 11, 2005 has been entered and is acknowledged by the Examiner.

Cancellation of claims 16 and 18 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title of the invention is not descriptive. In pursuant to MPEP § 606.01 the title has been changed as follows.

-- VISUAL DISPLAY WITH CATHODE PLATE CONNECTED TO A SEPARATE BACKPLATE --.

Allowable Subject Matter

Claims 1-15, 17, 19-25 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a separate back plate having vias in front layer positioned to connect via solder connections with the second vias depending from the conductive back layer of the cathode plate.

Claims 2-15, 17, 19-22 and 24, 25 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 23 the prior art of record neither teaches nor suggests a visual display with the limitations as claimed in claim 23 and particularly the limitation of back plate provided with plugged apertures for handling pins and back side of the cathode plate provided with recesses for the handling pins in register with the apertures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
